nere is, another fact that might be interesting in this discussion: With or without Rube Waddell the Athletics could not thave won. In the four games they lost the Athletics did not score a run. Could a team win without a run even if they had Waddell to pitch?

Connie Mack did not half-

to pitch?

Connie Mack did got believe that Waddelf had been disloyal. His own statements believe that statement. He announced two days before the series was to be played that Waddell was out of condition and could not work. At Philadelphia he explained to several writers that Waddell was hurt on the train and could not pitch for that reason. He laughed at the talk of crookedness. that reason. He laughed at the tax of crookedness.

To sum the matter up the story of Rube Waddell's disloyalty is rot. Waddell has been accused of almost everything else on the calendar, but never of being crooked.

Now dear reader, don't let this bother you. The eccentric Mr. Waddell will be whistling balls about betters heads for the Athletics when the flowers bloom in the spring.

The Irish-Americans had compiled they would have suffered a great money loss on the steller midwinter games.

The trouble dates back to last July, when Castleman and Joyce were suspended. We are the first who have ever brought them to time." Justice Giegerich's decision assures

the success of the Irish-American ath-letic carnival at Madison Square Garden on Feb. 8. It was affeged that there was a plot on the part of James E. An Old Theory Upset.

The Registration Committee fought the injunction on the ground that the A. A. U. was not incorporated, and the Irish club had to obey the by-laws, which gave the committee undisputed power. Justice Glegerich's decision upsets this theory.

Until Castleman and Joyce are given a trial by the Registration Committee they are free to compete in any games. It is believed that Mr. Sullivan will contest the matter further for the purpose of maintaining his undisputed rule.
